

Plug Valve

General

CCSC Plug valve is designed to be compatible with FMC ULT plug valve based on technology imported from FMC. To ensure the quality, our plug valves are forged by the high quality alloy steel. All processes including forging, machine, and heat treatment are strictly controlled and full trackable in according with API 6A, API 16c and Q1, as well as NACE-MR-01-75 (sour gas service), full packages of MTR can be sent with consignment upon client's request. Plug valve is available in sizes ranging from 1" to 3" and can handle up to 15,000 psi for either standard service or sour gas service.

Available Spec.

Service	:Oil, Gas, H2S Service
Size	: 1", 1 1/2" , 2" , 3"
End Connection	Weco Hammer Union, Flange, Thread
Working Pressure	:2000 - 15,000PSI

Features

- Forged body by alloy steel
- Low torque operation
- Flange connection is available
- Fast, simple field repair and maintenance

INSPECTION, QUALITY CERTIFICATE AND AFTER-SALE SERVICE

Inspection

We adopt factory inspection and on-site inspection. If the product passes on-site inspection, it will enter warranty period. The inspection conforms to the protocol signed by the two parties and product manufacturing standard. Any kind of third party inspection is acceptable.

Quality Certificate

- 1) All the equipment are manufactured according to ISO9001 and API standard
- 2) Warranty period is 18 months after receiving the goods or 12 months after operation. If there are quality problems within warranty period, the supplier is responsible for solving problems in time at any time.
- 3) If failure and potential safety hazard appear during operation because of designing defect, the supplier will improve the equipment for free.
- 4) We will provide complete high quality technical document and brochure of the whole equipment in

English.

Documentations

- 1) Traceability Documents: (Including Raw Material Test Certificate, NDT Report, Pressure Test Report, etc.)
- 2) General Assembly Drawing
